## When Health is Wrong The Pay is Short

Getting ahead in this world calls for mental and physical forces kept upbuilt and in trim.

Often the food one eats "makes" or "breaks"—it depends upon the kind of food. In many cases the daily dietary lacks certain essential elements for keeping brain and body at their best.

Over 18 years ago a food was perfected to offset this lack—

## Grape-Nuts

—and it has stood the test of the years.

Made of whole wheat and malted barley this famous pure food supplies all the nutriment of the grains including their mineral salts—Phosphate of Potash, etc.—necessary for building brain, nerve and muscle.

Grape-Nuts has a delicious nut-like flavour; is always ready to eat—fresh, and crisp from the package; so thoroughly baked it is partially pre-digested.

Thousands "on the job" every day know

## "There's a Reason" for Grape-Nuts
